"Being part of the mentoring programme has given me the opportunity to learn and discover a variety of surprising and interesting aspects of my craft."

"The programme has really helped with my career development as I have focused a lot of my sessions around helping me build better working relationships."

"As a mentor, the programme has also helped me with my own development, as when you have to answer your mentee's questions, you have to analyse your work and your career."

Cross-Border Conversation: Creating supportive teams when telling emotionally tough stories

Telling emotionally tough stories on sensitive topics is difficult and important work. How do you ensure team members across production and post-production are well prepared? What special measures should be taken to ensure that the team is appropriately selected and briefed, with awareness about the potential triggering nature of the subject? How can the team work well with vulnerable documentary contributors and actors? What measures can be put in place to ensure everyone is supported before, during and after the production?

This virtual event will comprise a 60-minute conversation followed by 30 minutes of virtual networking, with the chance to widen your employment networks.
